

## Heartsaver® First Aid Online With CPR & AED Part 1\*

### Course Covers:

- **First aid basics**
- **Medical emergencies**
- **Injury emergencies**
- **Environmental emergencies**
- **CPR**
- **AED use**

Nearly 80 percent of cardiac arrests occur outside the hospital. And in recent years, OSHA reports that approximately 4 million workplace injuries and illnesses occurred annually. Providing training that enables employees to take appropriate rescuer action at the workplace is an essential element of an effective safety program.

The Heartsaver® First Aid Online with CPR & AED Part 1 Course offers a flexible, time-saving option for workplaces that need to provide safety training. The complete course is delivered in three parts. Part 1 delivers the cognitive learning through Web-based, self-paced modules. Parts 2 and 3 require students to meet with an American Heart Association Instructor to complete a hands-on skills practice session and a skills test. Upon successful completion of all three parts students receive a course completion card valid for two years.

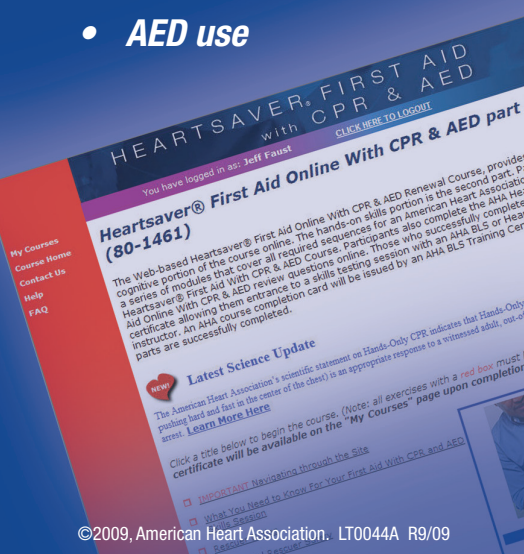

ISBN: 978-0-87493-887-6 Product: 80-1461

### Features

- Interactive questions and video segments
- Downloadable student review guide available to users up to 12 months after initial completion
- Part 1 Certificate of Completion is provided and must be presented at a skills practice session (Part 2) and skills test (Part 3) conducted with an AHA Instructor
- Can start, stop and return to online modules as needed

### Benefits

- Convenient alternative to traditional classroom training
- Offers fast implementation with no classroom scheduling delays
- Self-paced learning for Part 1
- Flexibility to complete online modules at home or work
- Content based on the latest AHA science
